IVAR'S
CUSTOM DISPLAY FIXTURES SINCE 1966

A 50-YEAR TRADITION OF EXCELLENCE

Ivar's Cabinet Shop, Inc. was established in 1966 by founder, Ivar Gundersen. Today, Ivar's Displays remains a fourth-generation, family-owned business in Ontario, California on the West and Shelby, North Carolina on the East. Ivar's Displays' reputation for great customer service, quick lead times, and high quality work at competitive prices has led us to become one of the largest manufacturers in the United States. Our team of well-trained employees have the experience, creativity, and expertise necessary to provide the best possible equipment solutions for both retailers and distributors alike.

Our Mission: To assist our customers in increasing their sales by providing exceptional design, quality & customer service.

Our Vision: Ivar's is the most trusted provider of custom display solutions.

ADDING VALUE TO YOUR BUSINESS

Custom, stylish and affordable designs.

From inception through completion, Ivar's implements a proven design approach that leads to an innovative and creative way of enhancing our customers' experience. We take great satisfaction in helping you find or design the right display for any product or market.

GUIDING YOUR PROJECT FROM START TO FINISH

Consultation

Our Sales Team listens to your desired needs & goals, and then works closely with our Design Team to create your display and/or project within budget.

Design & Engineering

Our Design Team uses state-of-the-art CAD software to efficiently value engineer your vision, ensuring the optimum design and materials are selected.

Computer Rendering

Our team can provide you with computer rendering of your display or project before manufacturing, so there are no surprises.

Branding

Our Designers can help create and/or incorporate your logo, brand, and POS graphics into your display or project.

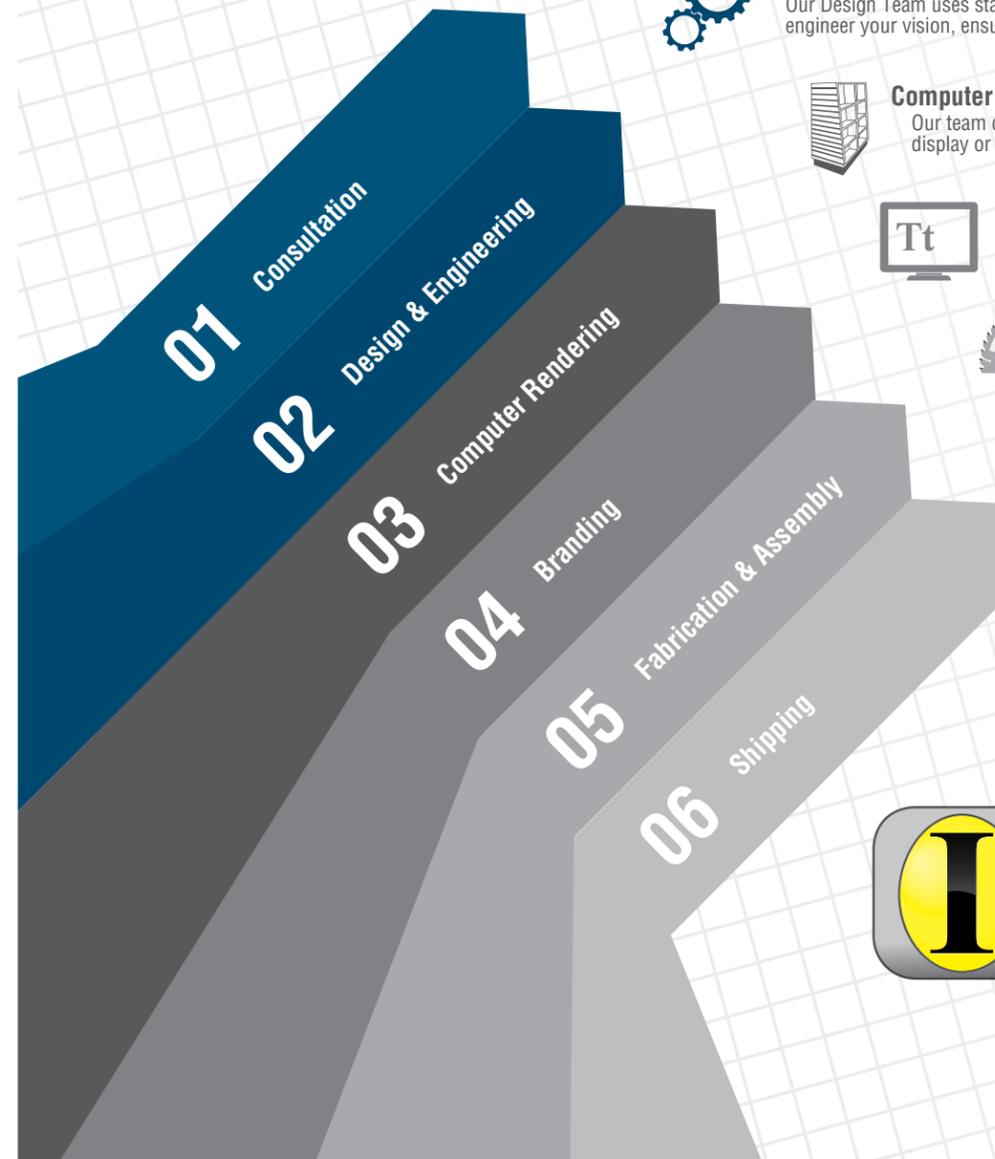

Fabrication & Assembly

Utilizing advanced CNC machinery, your parts are manufactured quickly and with extreme precision. Those parts can then be assembled by our experienced team of expert assemblers.

Shipping

Our company offers incredible flexibility on how to ship or will call your items. Whether you want us to deliver locally using our own fleet, ship via LTL or dedicated truckloads across the country via our highly discounted rates with multiple carriers, or setup your own shipping – the choice is yours.

If you don't see it, we can build it!

PROFESSIONAL DESIGNERS

Our team can bring your vision into reality.

Ivar's team includes a highly talented full-service CAD (Computer Aided Design) design and engineering department that is committed to helping develop the perfect display to meet your needs. We offer a complete array of services that include 3D solid modeled designs, allowing you to view your display prior to fabrication. Our sophisticated CAD software enables us to control our CNC equipment and optimize material layout, thereby reducing costs to our customers.

We can often digitally prototype your project in as little as a day, and quickly turn around your physical prototype, often times in less than a week.
